Chrno

JUL 25 1950

Assistant Director, OO

Assistant Director, ORE

"Presentation Function" of ORE

1. Regarding the Management Staff's 10 July 1950 memorandum on realignment of certain Agency Functions, it is my understanding that only the "oral interrogation and presentation" function of ORE is to be considered for transfer to OO.

2. Under the proposed transfer it is supposed that ORE would retain the responsibility for providing a centralized intelligence graphics operation for CIA and for maintaining a situation room as required to meet ORE's needs. The Graphics Register, OCD, probably will handle the film presentations formerly arranged by the Presentation and Graphics Branch.

25X1A

3. Your attention is invited to CIA Administrative Instruction [redacted] which describes the functions in question now carried out by ORE, which Management has recommended be transferred to OO.

4. There is attached for your information a statement of functions and table of organization for the activities to be transferred to OO under this proposal.

5. I will be glad to discuss the Management Proposal with you and suggest that OSI be included in any conversations held on this subject.

6. Consideration of the problem in ORE is being carried out by the Plans and Policy Staff in close collaboration with the Planning Staff in OSI. I have directed the Plans and Policy Staff, ORE, to provide me with comments and recommendations by 28 July 1950.
